

PRESS RELEASE

Symbol of the Word

Dear Sir/Madam,

Kindly publish the following Press Release regarding the research paper published at the UGC Sponsored National Conference on Desirable Practices in Teaching, Learning and Evaluation at BPC College, Piravom, on 29-30 June, 2010 organized by University Grants Commission, New Delhi and BPC College, Piravom at BPC College, Piravom. This is regarding some important discoveries in Cybernetics and Teaching, Learning and Evaluation, especially with regard to the discovery of the Word (Shown in the picture above). Kindly give necessary news value to the Press Release and publish it.

Thanks,

Prof. Reji M. Issac
Senior Lecturer in Electronics,
Department of Electronics,
B P C College,
Mulakkulam North P. O.

Discovery of the Word

A new research paper published at the two day UGC sponsored National Conference on Desirable Practices in Teaching, Learning and Evaluation at BPC College, Piravom, Kerala, India, from 29 to 30 June 2010, informing the world about the discovery of Word and Word of God, which is a fundamental paper in the latest research in **Cybernetics, Computing with Words (CW)**, proving the biblical verses. Prof. Reji M. Issac published and presented this paper, who is an **IEEE Senior Member** and **member of IEEE Systems, Man and Cybernetics Society, USA**. He is working at the Department of Electronics, B. P. C. College, Piravom, India. He was the founder Head of the Department of Electronics, and was the member of Board of Studies for Electronics (Post Graduate and Under Graduate studies) of Mahatma Gandhi University, Kottayam. He is currently working on the Research Projects of University Grants Commission,

under Government of India related with brain waves and brain wave machines and also doing research in Cybernetics related with Computing with Words. He produced the Symbol of Word as shown in the picture attached with this report. It is reproduced using the sinusoidal Lissajous signal pattern, which also explains the thought process. The first letter of the "WORD", W is half portion of this symbol and also shows the two halves of the brain. These words are flying through the Heaven, which can penetrate anywhere so that it can enter anywhere in flesh, Earth, Heaven or any body including heavenly bodies. Read Hebrews 4:12-13 in the Bible, which says, "For the Word of God is living and active. Sharper than any double-edged sword, it penetrates even to dividing soul and spirit, joints and marrow; it judges the thoughts and attitudes of the heart. Nothing in all creation is hidden from God's sight. Everything is uncovered and laid bare before the eyes of him to whom we must give account". These words are produced through the thought process, which are known as WORD, and if God accepts it, it is known as Word of God. This is not generated in a particular language, but as a particular form in the spirit, which is part of God, which is arranged in a logical order, where language is localized in a human brain, as a firmware. Words are scattered through the heavens, where Word of God enters to eternity. God controls through Word of God so that all activities are works of Words of God. This symbol also explains the thought process, which is working under a cybernetic circular causality loop, where the thought of the human travels through the curvilinear path in the picture. **In the ages of Cyber War or War of Words and communication technologies, this paper reveals certain important aspects to the world about the Word and about its existence.** This paper also explains and defines the 'Normal' status of a human being and explains "mood disorders". This paper explains the basic reasons of pathological condition known as Tinnitus (ringing sound in the ears), and Schizophrenia. This paper reveals and explains secrets related with Life, Spirit, Lightning and Eternity. He also reveals why science is an imperfect method to know the truth and how to solve this problem. All temporary truth about eternal triteness is cured through this paper. He also exhorted to lead a Defensive Life Style keeping the laws of God to live peacefully and safely. This paper is going to give a base for the science of Cybernetics and Noology, which is the science of the intellect and intellectual phenomena, and gives important theories in teaching, learning and evaluation, towards eternity. A Christian mystic and theologian French Jesuit priest, Pierre Teilhard de Chardin, who also was a paleontologist and philosopher during 1881 to 1955 period, envisioned noosphere as evolving towards an ever-greater integration, culminating in the Omega Point, which he saw as the ultimate goal of history, which we achieved now. This paper also proved that Jesus Christ was Word of God, who informed the laws of God, who arranges each individual in the 'heart', which are the laws in the spirit too, which we have to keep for getting peace and life. This paper describes life as a digital technology using water and fire, where pure light is with God and pure darkness is with Black Hole, where black hole is the subterranean fire, where second death described in Revelation 20:14 also happens, where spirit also dies.
